SENATE CLERK'S OFFICE  
SENATE NO. 8  
DATE 2-14-07  
FILE NO. SB 407

hi keith, could you print this for committee members?

hello committee members,  
the number one industry in montana, agriculture, is in trouble in south east montana. this extended drought is wearing us down. we need water. we have been lucky to have some rain to start our grass these last years but have had zero runoff. we have 2 dozen empty reservoirs. with no stock water these pastures are useless and we continue to cut cattle numbers. it sure looks simple to me ton allow well water into our reservors and keep montanas economy going.please vote to help us with sb407.  
thankyou  
jae notti
